GRAND JURY PROBES STRIKE AND RIOT

Work Is Resumed at Plant of Youngstown Tube Company

WORKERS NOT MOLESTED

Labor Leader States Rioting Was Scheme to Depress Value of Stock of the Company

THIRTY-ONE MEN ARE FINED

YOUNGSTOWN, O., Jan. 10.—The opening of the grand jury investigation during the strike and rioting in East Youngstown, the resumption of work at the plant of the Youngstown Sheet & Tube company and the ordering home of the fourth regiment of the Ohio National Guard which had been called out for strike duty were the developments in the situation here today. Quiet prevailed in the vicinity of the tube works and employes who reported for duty today were not molested either when entering or leaving the plant. There were no pickets in evidence and the belief was expressed by county officials tonight that the crisis in the situation had passed. Many witnesses were examined by the grand jury during the day but according to Prosecuting Attorney A. M. Henderson, no report will be made until later.

Twenty Witnesses Summoned.

About twenty witnesses already have been summoned but the district attorney says many more will be called. Mr. Henderson announced he had asked the state attorney general to send an assistant down here to aid in the prosecution of the strike cases.

Thomas H. Flynn, genral organizer of the American Federation of Labor in a statement tonight charged that last week's rioting was a financial scheme to depress the value of stock of the Youngstown Sheet & Tube company, so that a merger of independent steel interests can be effected.

"We have evidence that we regard as conclusive, proving to us that this entire trouble was caused by paid sluggers, brought to East Youngstown by the Youngstown Sheet & Tube company," Mr. Flynn charged in the statement. "The gunmen who did the shooting were residents of Pittsburgh. We understand that these gunmen, 25 in number were deputized by Sheriff Umstead. If this is so the sheriff has violated the law.

"I do not think there was any foreign influence involved. I think it was a financial scheme rigged up as the last desperate resort to depress the value of the tube works stock so that interests that are trying to form a great half billion dollar merger could get the control they wanted. Strangely enough control of tube works stock is held by local men. They did not want to sell; they figure that stock worth $300 to others was worth that to them and they wanted to keep the control in Youngstown.

"I have seen slugegrs here that I can identify as sluggers that have operated in other places. This whole thing was engineered by financiers. Organized labor demands that this rotten thing be investigated to the finish."

To Call Flynn Before Jury.

Prosecuting Attorney Henderson, said Mr. Flynn would be called before the grand jury.

Tube company officials claimed about eight hundred men returned to work today.

Two federal investigations were started here today. George A. West of Wasington, D. C., representing the federal commission on industrial relations and postal inspectors arriving in East Youngstown.

Persistent reports tonight said strikes in the plants of the Youngstown Sheet & Tube and the Republic Iron & Steel company in East Youngstown, Struthers and Lansingville, affecting 18,000 had been settled. Confirmation was impossible.

Thirty one foreigners arrested for carrying concealed weapons were today fined from $5 to $50 in East Youngstown. More than a hundred arrests were made. Police expect to dispose of the other cases soon.

Counsel for persons whose homes and properties of business were burned by the mob resulting in a loss estimated at more than $1,000,000 said they would be unable to collect any damages.

Insurance companies will not pay, it is held and neither the states nor county can be held liable.

HUERTA'S CONDITION CRITICAL.

El Paso, Jan. 10.—Slight hope for the recovery of General Victoriano Huerta remained tonight when his physician Dr. M. P. Schuster, stated the patient was gradually losing strength and that his illness had reached a critical stage.

DU PONT PLANTS HAVE THREE EXPLOSIONS

FIRST BLAST AT CARNEY'S POINT, N. J., KILLS THREE MEN

Two Mills at the Upper Hagley Yard Near Wilmington, Del. Are Blown up and One Workman is Slightly Burned.

Wilmington, Del., Jan. 10—Following the explosion at the DePont Powder plant, Carney's Point, N. J., early today, in which three workmen were killed, two mills blew up at the Upper Hagley yard near here this afternoon. In the latter accidents one workman was slightly burned.

The three explosions within one day have had the effect of making the secret service and police departments of the DuPont Powder company unusually active in looking for possible clues indicating "outside influence."

A press mill blew up at 3 o'clock this afternoon with a loud report. It was in this explosion that the workman was hurt. Ninety minutes later a mixing mill near the press mill also exploded.

It contained 500 pounds of powder. No one was injured. Both mills were blown to atoms, the shocks being heard for at least twenty-five miles.

The disaster at Carney's Point was due to an explosion of smokeless powder, while at the Upper Hagley yard it was black powder that went off. Up to a late hour tonight there were no developments as to the causes of the three explosions.

BEGIN FINAL ARGUMENTS IN SUIT TO DISSOLVE REFINING COMPANY

NEW YORK, Jan. 10.—Final arguments in the government's Sherman lawsuit to dissolve the Corn Products Refining company were begun today before Judge Hand in the United States district court. The government is represented by Assistant Attorneys General Adkins and Lindsley, while the alleged $40,000,000 corporation is represented by Former Judge Morgan J. O. O'Brien and A. P. Boardman.

Attorney Lindsley for the government declared that under the guidance of the "Standadr Oil men" in the company's directorate, the company has sought to destroy competition by under selling and other methods.

Arguing for the defense, Attorney Boardman said the company continued a profit sharing plan for three years at a cost of $1,500,000 and went into the candy business in order to keep the company from financial failure.

REPLIES TO REQUEST.

London, Jan. 10.—Sir Edward Grey, secretary of state for foreign affairs, found opportunity for some plain speaking regarding the Austrian-Hungarian submarine warfare in a leter to Ambassador Walter Page, replying to a request from the Austrian-Hungarian government that special pains be taken to insure the safety of certain Austro-Hungarian subjects that are being repatriated from India on the steamship Golconda.

ATTEMPT TO SELECT POSTMASTER FOR CHICAGO

Washington, Jan. 10.—Postmaster General Burleson and Senator Lewis of Illinois confered today in an effort to select a postmaster of Chicago to succeed Dan A. Campbell, the Republican incumbent. Mr. Burleson wil take th equestion up with President Wilson tomorrow. It was said tonigat no decision had been reached.

JOHNSON IN CLEVELAND.

Cleveland, O., Jan. 10.—President B. B. Johnson of the American League was here today in an effort to effect the sale of the Cleveland Baseball club. He held several conferences with C. W. Somers, present owner, and with the bankers in charge of Somers' financial affairs, in a final effort to interest Cleveland capital in the deal.

WILSON WILL NOT ATTEND BANQUET.

Springfield, Ill., Jan. 10—Because of an engagement in Washington on the evening of Feb. 11, President Wilson today informed Governor Dunne that he will be unable to attend the annual Lincoln Day banquet in Springfield the evening of Feb. 12.

Governor Dunne invited the president to attend some time ago and news despatches from Washington several days ago stated that President Wilson probably would accept.

MUST MOVE TO PREVENT TRADE WAR.

London, Jan. 10—Walter Runciman, president of the board of trade, won tremendous applause from the house of commons tonight with a speech in which he declared that the entente allies must take steps to see that Germany is unable to carry on a trade war against them after peace is signed.

HOTEL IS BURNED.

Saul Ste Marie, Ont., Jan. 10—The new International Hotel was burned late tonight causing a loss it was estimated of $250,000. The guests, most of whom had retired, escaped injury.

TEUTONS ADVANCE IN MONTENEGRO

Invasion is Causing Great Uneasiness Among the Entente Powers

FRENCH REPULSE ATTACK

Germans, However, Retain A Foothold at Two Places in French Advanced Trenches

GIVE DETAILS OF OPERATIONS

LONDON, Jan. 10.—While the Russian front has been quiet during the past twenty four hours there has been severe fighting in the other war theatres.

Austrians Generally Successful.

On the Montenegrin front the Austrians have been generally successful. They have advanced their positions at several important points despite the handicap of snow waist deep and are showing themselves just as adept as the Montenegrins in mountain fighting which heretofore has been regarded as the particular specialty of the Montenegrin soldiers.

In Champaign the French have repulsed four German attacks. The Germans however, have retained a foothold at two places in the French advanced trenches.

In Persia British reinforcements on their way to the relief of Kut-El-Amara have met Turkish forces which were compelled to retire after some heavy fighting.

The Petrograd official communication says that the calm on the Czernowitz front is due to the huge losses and resulting demoralization of the Austro-Hungarian army. That there is some basis for this statement is evident from the estimate of the Hungarian newspaper Pester Lloyd that the losses on both sides of the Bessarbian battles so far exceed 175,000 or more than the total British losses in the whole Dardanelles campangn.

Fighting Bloodiest of War.

Another Hungarian newspaper states, on the authority of a staff report that the fighting on this front has been the bitterest and bloodiest in the history of the war, both sides sacrificing men in a manner without parallel.

The Saloniki front is chiefly notable in the day's dispatches as the scene of almost continued aeroplane skirmishes, one of which continued for two hours. The Germans have thus far lost six aeroplanes in this region.

The rumor that the consuls of the Teutonic allies arrested at Saloniki had been released appears to have been without foundation as it is now announced that they have been transferred to a French auxiliary cruiser on which they have been interned. Extensive Turkish reprisals are already announced of the central powers.

The present situation in Albania was thus summed up today by Lord Robert Seel, secretary of foreign affairs:

"I regret to say that it is impossible to speak of Albania as an entenity at present. In the center the relations between the Serbian soldiers and the population have been friendly and Essad Pasha has rendered them valuable assistanlce. The northern tribes, among whom the enemy has conducted a considerable propaganda are hostile to the Serbians and Montenegrins."

Give Details of Operations.

Several lengthy despatches have been received here giving details of the recent operations in East Galicia which were so meagerly described in teh official reports.

According to these despatches, the Russians after artillery preparation which showed there was no longer any shortage in their big gun ammunition, started an offensive which caused the Austro-Germans to rush every available division to Galicia.

Czernowitz is still in the possession of the Austrains and is filled with wounded. But the Russians apparently are directing their man attack against Sadagora, north of the Bukowina capitl, where five important roads converge. In the Balkans, reports persist that the Germans are concentrating at Monastir preparatory to an attack on Sloniki, but the interest in the Macedonian campaign has become secondary to the operations of the Austrians in Montenegro.

Extend Over Wide Front.

The formidable Austrian forces invading Montenegro extend over a wide front, from the River Tara in the west to the Ipek district in the east. It cannot be disguised that the invasion is causing great uneasiness among the entente powers, and especially Italy, which sees in its success an end to Italy's dream of dominating the Albanian littoral of the Adriatic. The Italian newspapers in expressing the opinion that an Austrian success against Montenegro would give the invader an incalculable political, maritime, commercial and strategic advantage admit, the fear that Italy's intervention in the Balkan campaign has come too late.

TELEGRAPHIC BRIEFS

WASHINGTON, Jan. 10.—President Wilson renominated Surgeon-General Blue of the public health service for another term of four years.

JEFFERSON CITY, Mo., Jan. 10.—A protest against the reorganization plan of the St. Louis and San Francisco railway as filed with the Missouri Public Service Commission today by the Oklahoma Corporation Commission.

POSTPONE RESTORATION OF MEXICO CITY AS CAPITAL

WASHINGTON, Jan. 10—Restoration of the old capital as the seat of government in Mexico apparently has been postponed indefinitely. Advices both to the state department and to the Mexican embassy here indicate that General Carranza will remain for weeks and probably months at Queretaro, making that place his headquarters as he formerly did Vera Cruz.

Military and civilian chieftains of the de facto government are gathered at Queretaro now for a general conference called by General Carranza. Dispatches to the state department today announced the arrival there of General Obregon and other leaders. It is expected that after the conference will come the announcement of a new cabinet, perhaps including as minister of foreign affairs, Juan Sanchez Azcona, who was secretary to Francisco Madero.

CHICAGO & ALTON TELEGRAPH OPERATORS RECEIVE INCREASE

CHICAGO, Jan. 10—Telegraph operators in the employ of the Chicago & Alton railroad today received an increase in wages averaging five per cent as a result of a conference between the men and General Superintendent Andrew P. Titus of th Alton. The 600 telegraphers working for the Alton road sometime ago made a demand for an increase which would average about 15 per cent, it is said. After a hearing of the men at various points on the system, a conference was arranged for Chicago today. Both sides made concessions and the new wage was made effective as from January 1st.

PERMIT SHIPMENT.

Washington, Jan. 10—Great Britain and her allies, it was announced today, have given consent to the American Red Cross society to ship its present accumulation of hospital supplies meant for hospitals in Germany and allied countries.

ETCHISON RELATES DETAILS OF MURDER

Witness Tells How Price Hurled His Wife From a Cliff

CRUSHED VICTIM'S HEAD

States He and Price Told Automobilists Mrs. Price Fell to Death Chasing Dog

PRICE SHOWS NO EMOTION

MINNEAPOLIS, Jan. 10—Charles D. Etchison, the state's chief witness in the murder trial of Frederick T. Price today on the witness stand told how he and Price took Mrs. Price to the East River road on the night of November 28th, 1914, and how Price hurled her from a cliff and then crushed her head with a rock.

Price Shows No Emotion.

Price listened with no evident emotion.

"It was two months before her death that Price first told me he must rid himself of his wife because he needed her money. Turning to a row of three electric light buttons, Price said, 'Charlie, I wish these represented Mary, her father and her sister. I would ——'. And here Price pressed the buttons one by one, leaving us in the darkness.

"'You don't mean to kill them?' I asked.

"'That's just what I mean. I must have Mary's money,' he replied.

"First I flatly refused to have a hand in the matter. Then he insisted and referred to the money I owed him and how much he would pay me if I would be his witness.

"On the night of the murder we drove to the cliff and Price brought the car to a stop. He told his wife he must make a slight repair and asked her to step from the car and take the dog with her.

Pushed Her Over Cliff.

"As she backed out on the running board Price seized her and gave a horrible push and she went crashing over the cliff. He threw the dog after her. Price beckoned me to follow hurried to the foot of the cliff.

"Mrs. Price was still living. Price looked about him a moment and gathering up a large rock, knelt down beside her. I turned my back and closed my eyes. As the thud of the rock against her head sounded in the stillness, the dog, unhurt by the fall whined and ran toward the cliff. In a few minutes the flickering spark of life had left the woman.

"We stopped passing automobilists and gave out the story that Mrs. Price fell to her death while chasing the dog."

The witness said he was haunted continually by the scene on the night of the alleged crime and decided to tell his story.

More than two thousand people were in a line waiting for seats in the court room long before court convened. Women predominated in the court room.

JURY DICT TWO GRAIN DEALERS ON CHARGE OF ACCEPTING REBATES

CHICAGO, Jan. 10—Bernard A. Eckhart, president of the B. A. Eckhart Milling company, and William H. Merritt, president, and Eugene L. Merritt, secretary and treasurer of the W. H. Merritt company, grain dealers, were indicted today by the federal grand jury charged with accepting rebates on grain shipments from the Pennsylvania and the Pittsburgh, Cincinnati, Chicago & St. Louis railroads in violation of the Elkins' law. The indictments against Eckhart charge acceptance of $2 a carload on shipments of flour, grain and milling products between Chicago and Eastern points in 1910.

SAMUEL LUCAS DIES.

New York, Jan. 10.—Samuel Lucas, author of the song "Grandfather's Clock," who was on the American stage for nearly half a century, died today at his home here at the age of 75 years. Mr. Lucas was one of the first members of the Elks Lodge, having been a charter member of Lodge Number 1.

COURT RENDERS DECISION.

Washington, Jan. 10—After ten years of legislation and litigation, the supreme court decided today that congress had enacted finally a constitution law regulating statements as to the curative effects of medicines in inter-state commerce. The decision was rendered by Justice Hughes. Numerous actions against drug concerns are expected to follow.

Burlington, Ia., Jan. 10.—Mrs. Martha Reid, a pioneer died at the age of eighty two years. For seventy years she lived in the same house.

PROGRESSIVES TO CONVENE JUNE 7?

GOSSIP HAS IT THAT MEETING WIL BE HELD THAT DAY

It is Reported that Moose Have 800 Rooms in Reserve—Perkins States There Will be a National Ticket Nominated by the Progressive Party.

Chicago, Jan. 10.—It was common gossip among national committeemen of the Progresive party, who met at a banquet here tonight in advance of an important meeting tomorrow, that the date for the national convention probably would be June 7th, the same as that of the Republicans.

None would make the statement for publication, but the impression seemed general that such would be the case.

It was reported that the Progressives hold 800 rooms in reserve.

At the banquet tonight George W. Perkins, the host, and Bainbridge Colby, of New York, were principal speakers. Mr. Perkins pointed out what he considered the mistakes of the Republican and Democratic parties and Mr. Colby pleade for a firmer stand in protecting American citizens and investments abroad.

Mr. Perins said today that there will "certainly be a national convention and a national ticket will be nominated by the Progressive party."

Among the committeemen who arrived today are: Harold L. Ickes, LaVerne W. Noyes, John C. Schaffer, B. F. Harris, Alfred L. Baker, Frank H. Funk and M. J. Dempsey, of Illinois.

DEMOCRAT IS ALMOST CERTAIN TO BE NAMED FOR SUPREME BENCH

WASHINGTON, Jan. 10.—President Wilson and Attorney General Gregory tonight began considering candidates for the vacancy of the United States supreme court caused by the death of Justice Lamar. They conferred for more than an hour going over the long list of men suggested and eliminating many names. Afterward the attorney general said no decision had been reached.

A Democrat is almost certain to be selected. Officials said tonight that enough Democrats of Supreme court timber had been suggested to practically eliminate the possibility of a Republican being appointed. A majority of the present members of the court are Republicans.

ADVOCATE CONSOLIDATION OF ELECTIONS.

Chicago, Jan. 10—The city council today adopted resolutions urging the elimination of the registration day March 21st, advocating the consolidation of thec ounty judicial election with the city aldermanic election and protesting against the consolidation of the presidential primaries with the aldermanic primaries. It was ordered that the governor, lieutenant governor and speaker of the house at Springfield be advised of the tenor of the resolutions.

CANVASS BASEBALL SUPPORTERS.

Rock Island, Ill., Jan. 10.—T. M. Chivington, Frank Carson and Chas. Moll, constituting a committee of the National association of Minor Baseball league spent today canvassing local baseball supporters as to whether they prefer to have a Three Eye or a Central Association team in this city. They will report their findings to J. H. Farrell, secretary of the association who is expected to decide the point next week.

WANT GUNS REMOVED.

Washington, Jan. 10.—The desire of the United States government that the two three-inch guns mounted on the Italian Liner Giusseppe Verdi, now at New York be removed and the vessel depart unarmed upon its return voyage, was expressed informally today to the Italian Ambassador, Count Macchi di Cellere by Secretary Lansing. The secretary's views will be transmitted to the Italian government and it is said until a reply is received the liner will be detained in port.

FIRE DAMAGES SUBMARINE BASE.

New London, Conn., Jan. 10.—A fire of mysterious origin caused several thousand dollars damage to the docks, coal pockets and storehouses at the New United States submarine base on the Thames river north of here late tonight. Officers in charge at the navy yard are reticent as to the details.

DISCUSS UNIVERSAL SERVICE.

Washington, Jan. 10.—Universal military service in some form in the United States, possibly the requirement that all men between 18 and 21 be given at least six months training as a substitute for the volunteer system was discussed today before the house military committee by Major General Scott, chief of staff of the army.

CONTINUE EFFORT TO UNEARTH MONEY.

Vancouver, B. C., Jan. 10—Workmen employed by the Bank of Montreal continued digging today in an effort to unearth $45,000, part of the $271,000 stolen from the bank's branch in New Westminster in 1911. The bank officials have information that the money had been buried near this city.

MAY NOT ACT ON ELECTION LAWS

Lawmakers Expect Little Important Legislation Outside Appropriations

FINISHES MESSAGE

Republicans Contend Action on Election Laws Might Lead to Bitter Political Fight

MAY AMEND ROAD LAWS

SPRINGFEILD, Ill., Jan. 10—Lawmakers who had arrived in the state capital tonight in response to Governor Dunne's call for a second special session of the Illinois legislature, to convene at noon tomorrow, expressed the opinion that little important legislation outside of appropriations would be enacted and that the special session would be able to complete its work within a week or ten days.

May Not Act on Election Laws.

Members of the Republican majorities of both houses declared it probable that little or no action would be taken on election or primary laws which were opened up for revision in the governor's call for the special session. They contended that action on these measures might lead to a bitter political fight.

Prospects tonight were that the principal work of the special session will be the enactment of additional foot and mouth appropriations validation of the $2,000,000 bond issue voted by Cook county two years ago, the re-creation of the pension and centennial commissions, slight amendment of the state good road laws and possibly the placing of the manufacture of hog cholera serum under state control. Charges have been made that the recent foot and mouth outbreak was caused in part by impure hog cholera serum.

Dunne Completes Message.

Governor Dunne spent the day completing his message which he will send to the assembly when it convenes tomorrow. It is expected the message will contain an urgent plea for the enactment of legislation eliminating many of the registeration days in Chicago, thereby saving the taxpayers of that city several thousand dollars annually. It was said the message may contain nothing in regard to the separation of the ballot next fall so that Cook county officers would be placed on a ticket separate from state and federal officers. At the time the governor issued his call for the special session, it was said that some prospective Democratic candidates for county offices in Cook county wished to be on a separate ballot, fearing that President Wilson's name at the head of the ticket might be a detriment, because of the president's stand on foreign relations.

To Ask F. & M. Appropriations

The special session will be asked to appropriate approximately $320,000 to pay foot and mouth damage claims. Of this amount $220,000 is now owed to stock raisers by the state and $100,000 will be asked as an emergency fund to take care of possible future outbreaks of the disease among cattle. It will be proposed that the emergency fund be placed in the hands of the state livestock board for distribution.

Governor Dunne's message is expected to ask the assembly to enact a law to determine definitely whether delegates to national conventions should be selected at direct primaries or be nominated by party conventions. The first special session in November refused to take such action.

OUTLOOK IN ENCOURAGING.

Washington, Jan. 10.—Difficulty i nagreeing upon details is holding up a final settlement of the Lusitania subject. Count Bernstorff, the German ambassador, and Secretary Lansing had another conference today and it was said later that no final agreement had been reached, altho the outlook was encouraging.

INSANITY WON HIS BOOTLEGGING CASE

Springfield News-Record—Isaac Tobin of Jacksonville, under indictment on a charge of bootlegging, gained his freedom in the federal court this morning under unusual conditions. Tobin, who is apparently seventy years of age, was indicted by the grand jury. He decided to stand trial, and Assistant District Attorney Stone had begun the task of selecting a jury.

After some progress had been made, a message came to United States Attorney Knotts from the sheriff of Morgan county, stating that Tobin until recently had been an intimate of the state insane asylum and was now out on parole. The United States district attorney went at once before Judge Humphrey with the information and on his motion the case was nolled. Tobin will be returned to the state institution.

Millions for Horses.

Vast numbers of horses have been shipped to the allies from this section of the country since the war began and as a result there has been some increase in the price of young horses of medium grades. The public has known in a general way that horses were being purchased for this purpose, but have probably not realized the enormous business the shipments have meant. The president of the National Stock Yards company of East St. Louis yesterday announced that 195,000 horses have been purchased at the yards for the allies, and that these purchases have represented $34,000,000.

Steel Cars Save Lives.

The public has all along looked with approval upon the growing policy of railroads to adopt all steel passenger coaches. A number of instances have been recorded when the fact that the coaches were of steel construction prevented great loss of life in railroad accidents. Friday of the past week six all-steel coaches on the M. K. & T. left the rails and were clear off the trucks and yet not one passenger was seriously injured. With more steel coaches, an improved system of block signals, with more rigid inspection of track and equipment, the day is near when the losses of life in railroad accidents will be much less than in the past, and the safety records of European service will be approached.

To Clean up Chicago.

As a part of the shape-up promised when Mayor Thompson of Chicago appointed Charles G. Healey as chief of police, an order was given transferring more than eighty officers and members of the force. Mayor Thompson's significant statement some time ago was that the detective department of the police force was "rotten" and he proposed to take steps to improve conditions. The appointment of Nicholas Hunt chief detective followed speedily and the shake-up order just given indicates the sincerity of Chicago's chief executive. Mayor Thompson may not be as big as his office in some ways but he has certainly made several orders since assuming office which required a lot of nerve and indicated a very earnest desire to make his administration a credit to the great city.

"Preparedness" for Business Slump.

Secretary Redfield has joined with others in sounding a note of warning to the U. S., suggesting a state of "preparedness" against the trade slump which is certain to come after the war. The secretary's letter points to the wonderful prosperity now prevailing, but has in it also the greatly needed words of caution, that the false standards of values have been created by the war and that there will be a great change when the foreign demand for war munitions ceases. The year has shown an export movement of more than $5,000,000,000 and a net balance in favor of the U. S. of $3,000,000,000 on merchandise transactions. A few years ago such a record would have been beyond belief and there is no reason now to think that these figures represent any normal business relationsip between this country and Europe. Some of Secretary Redfield's statements in the past have glittered with generalities, but this statement sounds a note worth heeding.

Rippling Rhymes By WALT MASON

HARD WORK.

It's hard to keep smiling when troubles are piling their weight on your

neck till it's sprained; it's hard to keep grinning when others are winning the prizes for which you have strained. It's hard to be cheery on days wet and dreary, when everything near you looks drowned; it's hard to be sunny when all of your money is sunk in a hole in the ground. It's hard to keep laughing when wearily quaffing the flagon of grief to the dregs, it's harder to frolic when you have the colic, or gout at the end of your legs. But how will it aid you, when woe has waylaid you, to rumble and grumble and swear? There's nothing that's healing in kicking the ceiling or biting the rungs from a chair. It's hard to look pleasant when anguish is present, and yet it is strictly worth while; not all of your scowling and fussing and growling can show off your grit like a smile.

DATES IN ILLINOIS HISTORY.

Jan. 11, 1805—The territory of Michigan separated from Indiana territory, then comprising Indiana and Illinois.

More Jobs for Women.

Women have reason to be well satisfied with the treatment accorded them by the Illinois state board of administration. Not long since the board made a ruling giving men and women the same salaries when like work was performed, and now announcement has been made of the board's intention to have male attendants in insane hospitals supplanted by women. This order will mean a vast amount of new positions open for women. The order was probably not made for the purpose of favoring women but to carry out the announced policy of the board to use gentler methods in the care of the insane.

A newspaper is not entitled to an opinion as to the advisability of such a change from a medical standpoint—that is, as to the benefit or lack of benefit in the system of treating the insane—but it is certainly true that in many positions women give more faithful and efficient service than men. This may be true of attendants—time will tell.

Progressives to Watch and Wait.

If report be correct, all that remains for the complete return of Progressives to the Republican fold is certainly that the nomination will be made of a candidate satisfactory to them. In other words, the Progressives do not want a so-called reactionary, and men like Mr. Root and Mr. Mann are on their tabooed list. For the purpose of holding a club over the heads of Republican leaders it is said the Progressive convention was called for June 7th, the same date that the Republican convention will be in session. The program will be to gather there and organize but to make no nomination until it has become known who is the Republican nominee.

Some good no doubt came from the Progressive movement, and no special harm can result from the proposed line of action. In fact, it will give the delegates to the Republican convention a greater sense of responsibility, for they know that the hope of success is in a united party and they will therefore watch the more carefully to see that some candidate in sympathy with progressive ideas of party control is nominated. Because of his record, because of his ideals, Senator Sherman can meet these requirements.

Real Patriotism.

Americans generally are behind the president when he insists on behalf of this government that the lives of Americans must be held sacred wherever they may be, but a large portion of the citizenship also feels there is justice in the stand taken by at least thirty senators that some way should be found to prevent Americans from jeopardizing their lives upon the ships of belligerent nations and thus exposing their country to the possibilities of grave international complications.

It is a fine thing to think of an American being able to go anywhere and to travel into the zone where submarines and mines threaten from below and the air is filled with flying shot and shell and still feel that he is safe. When necessity demands such exposure, protection by the home country is right and proper, but no citizen who has real patriotism in his heart and a recognition of the real relationships of things will take these chances just because he can and expect Uncle Sam to protect him. The American who goes into the danger zone from bravado, from recklessness, and does not take into account the very grave results which may come to his fellow countrymen from his action, is recreant to the real duties of citizenship.

Disprove Osler's Theory.

Commenting upon the life of Charles W. Knapp, so long associated with the management of the St. Louis Republic, and who died in New York recently, a St. Louis minister spoke of the fallacy of the Osler theory which Mr. Knapp's life so thoroly disproved. Mr. Knapp was about seventy years old and was occupying a place of large responsibility with the New York Times when death came to him. The minister pointed out that Osler's theory that men were of little value after fifty was continuously being disproved and that Mr. Knapp was but one of thousands of thousands in public life today. William H. Carpenter, president of the Union bank of Philadelphia, and who is active in its work, is seventy-three years of age, and his predecessor was ninety years old when he retired. Elihu Root, seventy years old, whom Roosevelt once declared the oblest man in public life in any country, is another man of years who is doing a great work. Dr. Weir Mitchell of Philadelphia achieved literary recognition after he was sixty years of age and nearly all of the generals in the great war who have performed great service, are men fully thirty years older than Napoleon was when he achieved military fame.

There are, of course, notable examples of young men of thirty years or so who have achieved wonderful success in business or distinction in profession, but it more frequently happens that men do their best and more serious work after they have passed the age of fifty. In Jacksonville there are some notable instances of this last statement.

MORTUARY

Burch.

James R. Burch, a former resident of Franklin, died at Leedey, Okla., Sunday after an extended illness. The deceased, who was past seventy years of age, had been resident in Oklahoma for an extended period, altho he was well remembered in Franklin, his former home. He returned for occasional visits and thru all the time of his absence had maintained his membership in the Franklin lodge of Odd Fellows. He served for some time as village marshal at Franklin and was a well known resident there. He is survived by his wife and several children. W. B. Lowery, assistant county superintendent of schools, is a nephew of the deceased. No details have been received but it is entirely possible that the remains will be brought here for interment.

Whitlock.

Miss Minnie A. Whitlock died at Passavant hospital Monday afternoon at 4.30 o'clock of pneumonia, after an illness of a week. Deceased was born in Morgan county, Dec. 14, 1866 and had lived in this vicinity practically all her life. At the time of death she was housemother at the Illinois Schol for the Deaf. She was a member of the Baptist church and of the Rebekahs.

The following survive: E. L. and T. H. Whitlock of this city; E. A. Whitlock, Decatur; C. J. Whitlock; Franklin; Mrs. ohn Duncan, Manchester.

Funeral services will be held Wednesday afternoon at 1 o'clock from First Baptist church with interment in Diamond Grove cemetery.

Allen.

Mrs. A. Haithman of South Prairie street received news Monday of the death of her sister in law Mrs. America Allen in Chicago. Mrs. Allen was a sister of the late Mr. John Haithman. The funeral will be held today and interment will be made in Chicago.

Doane.

L. S. Doane will leave this morning for New Salem to attend the funeral of his brother, Harrison Doane. He will be accompanied by Mr. and Mrs. Alfred Doane of Pleasant Hill, Pike county, who came to Jacksonville last night. Harrison Doane was the oldest brother of Alfred and L. S. Doane and died recently at his home in Canon City, Colorado. He was past seventy years of age and died as the result of a stroke of paralysis which he suffered some months ago.

Savage.

Edward Savage, a well known resident of Cass county, died at his home six miles northwest of Ashland Sunday afternoon at 4:45 o'clock. Mr. Savage had been ill for ten days. He had suffered a partial stroke of paralysis, when pneumonia set in and it was this combination that caused his death. He was sixty-two years of age and practically all of his life had been spent in Cass county, and he was well known there as well as in this locality. He had been most successful in his business and was accounted one of the most valued members of his community. He had long been a member of the Christian church, but in later years had attended a Methodist church which was near his home.

He leaves his wife, two sons, Henry H. of St. Louis. Walter of Ashland; two daughters, Mrs. Jed G. Cox of the north part of this county and Miss Louise at home; three brothers, Charles W. and Henry S. of Virginia, and Louis of Ashland.

The funeral will be conducted at the residence of his brother, Charles in Virginia at 12:30 Wednesday, Rev. C. E. French of the Christian church officiating. Interment will be in Walnut Ridge cemetery.

Roach.

Robert Edward Roach, infant son of Mr. and Mrs. Lawrence F. Roach of Peoria, died Friday afternoon at 12:30 o'clock after a brief illness. The ned came at the home of the child's grandparents, Mr. and Mrs Edward Roach of 204 Deleware avenue, Peoria. Double pneumonia was the cause of death. The child was born April 10, 1915.

Funeral services were held Sunday afternoon at 2 o'clock in charge of Rev. Father Samon. Several relatives were in attendance from this city.

Mrs. Roach was formerly Miss Clara Eck of this city. She is the daughter of Mrs. John Boland.

Harmony Lodge No. 3 A. F. & A. M. will hold a special meeting Tuesday evening at 7:30 o'clock for work. Visiting brethern welcome.

John Nunes, W. M.
John R. Phillips, Secretary.

Mr. and Mrs. Ben Chapin of 645 South West street have returned to their home from Monmouth where they attended the funeral of Mr. Chapin's sisters, Miss Grace Chapin.

FILE GEN. DODGE'S WILL.

Council Bluffs, Iowa, Jan. 10—The will of the late General Grenville M. Dodge was filed for probate here today. Certain charitable bequests are made but the bulk of the estate is left in trust until the death of the youngest grandchild.

RETURNS OPEN VERDICT.

Ottawa, Ill., Jan. 10—A coroner's jury today returned an open verdict in the case of I. G. Warner, of Chicago, who was found dead at Starved Rock Saturday with a revolver clutched in his hand.

FUNERALS

Clayton.

Funeral services for Mrs. William L. Clayton were conducted from the Christian church in Franklin Sunday afternoon at 1:30 o'clock in charge of Rev. C. W. Freeman. There was a large gathering of friends as Mrs. Clayton was a woman widely known and greatly loved.

The church choir furnished music and the flowers were cared for by the Misses Meda and Ruth Duncan, Edith Clarke, Mildred Tribble, Lou Duncan and Chattie Duncan.

Burial was made in Franklin cemetery and the bearers were Messrs. Benjamin Morris, E. L. Sweet, Henry Duncan, John Bateman, O. B. Rees, and Payton Bland.

Leahy.

Funeral services for Mrs. James Leahy were conducted from the Church of Our Savior, Monday morning at 8:30 o'clock, Rev. F. F. Formaz officiating.

Interment was made in Calvary cemetery and the bearers were Frank McKinney, Joseph Clancey, Thomas Duffner, John M. Doyle, John J. Ferry and Michael Heffernan.

RED CROSS SEAL REPORT MUST BE COMPLETED SOON.

Mrs. E. P. Cleary, director of the Red Cross seal campaign, is required to make report on the local sales to the state anti-tuberculosis society at an early date and it is therefore necessary that exact account be taken of stamps sent thru mails. It is suggested that persons receiving the seals send in their contribution as soon as possible or, at least, return the seals.

Last year Morgan county had the record for the highest number of seals sold per capita. A contribution of two and one half cents from every man, woman and child in the county was the result of the 1914 campaign. It is hoped that the 1915 reports will total as well. There has been a great deal more competition in year. Many counties hitherto inactive have pushed the sale of seals and if contributions are not closely watched, Morgan may not this year be first county.

Why Should You Pay Another Man's Bills?

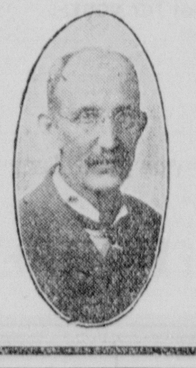

Of course you say you shouldn't—but that's just what you do when you trade on credit; the man who pays is charged enough more to cover the losses from men who don't pay. Think it over and you'll see we are right.

Quit paying the other man's bills—come to us and get the money to pay all your own bills and start on a cash basis What you save will more than pay us.

Scientists discover the cause of bleeding gums and loose teeth

The old idea that bleeding gums and loose teeth (symptoms of pyorrhea) are due to little pieces of tartar or bone under the gums, has been exploded. Scientists have made the astounding discovery that this disease is caused by a germ which is found in *every* human mouth.

This germ is the most active and destructive enemy of *your* teeth. Are you protecting them against it? You *can* ward off its constant attack and escape the dread results of the disease by using the proper corrective and preventive treatment in your daily toilet.

To meet the need for this treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form of Senreco Tooth Paste.

Sample size

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Sentanel Remedies Co., 506 Union Central Bldg., Cincinnati, Ohio.

TWO WELL KNOWN PEOPLE OF MEREDOSIA VICINITY PASS AWAY

W. E. Sibert Died Saturday Evening and Mrs. Anna Hagerdorn Sunday Evening.

W. E. Sibert of Meredosia died Saturday evening at 9:30 o'clock at the family home six miles east of Meredosia, aged 90 years. Mr. Sibert was a passenger on the first train ever run west of the Allaghany mountains. He had been a farmer all his life except for the service he rendered his country in the Civil war. He was a native of Portsmouth, Ohio and remarkably well informed man. The funeral services were conducted Monday afternoon, from the Methodist church.

Death of Mrs. Hagerdorn.

The death of Mrs. Charles Hagerdorn took place at her late home five miles east of Meredosia Sunday evening at 5 o'clock after a continued illness of about five years. Her maiden name was Anna Schlieker. She was married April 12, 1906 to Charles Hagerdorn. She is survived by her husband and five brothers, John, Charles, August, Ben and Will. The funeral will be Wednesday morning.

DEBATE PHILIPPINE BILL.

Washington, Jan. 10—Debate on the bill to grant the people of the Philippine Island a greater decree of self government continued in the senate today, Senator Kenyon, Republican, joining with Democratic senators in urging its passage. The bill should become a law Senator Kenyon said, not only in fulfillment of promises and moral obligation to the Philippines but for the good of the United States.

COMMUNICATE ACROSS THE CONTINENT.

Washington, Jan. 10—Flagships of the Atlantic and the Pacific fleets were in radio communication today across about 2,500 miles of intervening land. The battleship Wyoming near Cape Henry, reported to the navy department that messages exchanged with the San Diego at Guaymas, Mexico were strong and easily read.

HAUSER IS PLACED ON TRIAL.

Omaha, Jan. 10—Arthur Hauser was placed on trial today on the charge of killing W. H. Smith, cashier of the Woodmen of the World last October.

The principal witness for the prosecution is Miss Grace Slater, an employe at Woodmen National headquarters, whom Smith was accompanying home from a revival meeting at the time of the tragedy.

DAVID BISPHAM AND HIS COMPANY PLEASED

Grand Opera House Patrons Enjoyed an Evening of Song Last Night by Well Known Artists.

Lovers of music enjoyed a rare treat at the Grand Opera house last night when David Bispham appeared in his one act musical drama "Adelaide" and also appeared in "The Rehearsal" the comedy with music. The play is founded upon a romantic episode in the life of Beethoven, and the music is arranged by Dr. Rudolf Von Liebich. It was an enthusiastic audience that greeted the evening entertainers and all were highly pleased with the offering. Those who have followed the musical career of David Bispham, know of his extraordinary ability along musical lines. He has been heard before and his artistic singing is ever highly appreciated. In Hugo Muller's powerful play he was given a splendid opportunity to show his gifts as an actor. Miss Idelle Patterson, the sorporano possesses a wonderful voice, which she uses with great effectiveness. Her encores were numerous. Graham Harris, the young American violinist, scored a great hit with the audience. After his appearance in the "Rehearsal" he was called to the stage for four encores and then the audience would scarcely let him go. His playing was artistic and he is a thoro musician. Others who took part on the program were especially talented for their respective parts and Manager Johnson is to be praised for bringing the company here.

WOMEN IN THE NEWS.

New York—Preparations are well under way for the biennial of the General Federation of Women's Clubs to be held here from May 24 to June 3. Mrs. John Hays Hammond is chairman of the committee of arrangements, and serving with her are representatives of the Daughters of the American Revolution and other societies, as well as Mrs. Charles S. Whitman, wife of the Governor; Mrs. John Purroy Mitchell, wife of the mayor, and Mrs. William Prendergast, wife of the city comptroller. Fully 30,000 prominent women from all sections of the country are certain to attend. The convention hall will be in the Seventh Regiment Armory, which will seat ten thousand guests.

Denver, Colo.—The most independent woman in Colorado is Esther Donovan, a wood chopper. She was formerly a school teacher, and she married James Donovan, also a school-teacher. When he developed tuberculosis, she brought him from Boston to Anaconda, Colo., with their three children. They settled in a mountain cabin, and Mrs. Donovan kept the wolf from the door by hiring out as a wood-chopper. She hewed the forest with the axe valiantly, and is still swinging her axe with the strongest lumbermen. And she says she is going to stick to it until her children are educated. Societies, clubs, and individuals have offered to aid her, but she is happy in her independence, and loves her work. She accepts no gifts or bonuses and refuses to work at any wages higher than other woodsmen secure.

Los Angeles—Mrs. Katherine Tingley, head of the Theosophy settlement at Point Loma, is expected to be the central figure in the attempt of the sons of the late Albert G. Spalding, the sporting goods manufacturer, to break the will of their father. According to the will of Mr. Spalding, which was filed at San Diego, the $600,000 estate is divided between the sons and the widow, the latter receiving the bulk of the fortune. The sons make as the basis of their suit the claim that the greater part of the property will go to the Theosophist colony at Point Loma, of which Mrs. Tingley, known as the "Purple Mother," is the head. The sons claim that Mrs. Tingley and Mrs. Spalding exerted undue influence over the late Mr. Spalding. However, it is known that Mrs. Tingley and her cult were always admired by the sporting goods maker, and she was defended by him in the "Lotus Buds" litigation in 1893.

Point Pleasant, N. J.—Mrs. Luelia Arnold, widow of the founder of this city, is the newly appointed assistant superintendent of streets, and will receive thirty dollars a year to look after the condition of about fifteen miles of highways. Mrs. Arnold declares she will be a vigorous official and will see that the roadways are kept in order.

Washington—As soon as Congress has voted a site in Arlington Cemetery, a $50,000 memorial to the nuns who served as nurses on the battlefields of the War for the Union will be erected. Mrs. Ellen Ryan Jolly, president of the women's auxiliary of the Ancient Order of Hibernians, is in charge of the fund. Congressman Ambrose Kennedy is introducing a bill for the setting aside of a site in the national cemetery, and it is expected to be passed.

Chicago—Women have won their way into another sport, that of trapshooting. The "Dianas of the Traps" will shoot in the Grand Handicap, the gun classic, this year. There were 50 women shooters in the last big meet here, and they threatened to run a blue-ribbon event of their own if they were not allowed to enter the Grand Handicap. When the trapshooters gather this year in St. Louis at least a hundred women shooters will be in evidence. It is only a matter of time when they will have a gun championship of their own.

SPEAKS ON PREPAREDNESS

New York, Jan. 10—Compulsory military training is one of the finest pieces of Democratic necessity that has ever been put before the American people", said Representative August P. Gardner of Massachusetts, speaking on preparedness, before the National Security League here today.

Some Topics of the Farm

Troubles of the Stock Feeder.

Michael Cleary when at the stock yards in Chicago recently saw an example of the difficulties which face feeders in these days. A stockman from Brown county was there with 60 head of fine steers which he had on the market. They sold at $8.85 a hundred. More than six months before this man had purchased these cattle in Kansas City at $8.25, and then paid the freight to his farm. In the subsequent months he had the cattle on full feed most of the time, so that it can readily be figured that he did not get rich off the transaction and did well, indeed, if he came out even without counting anything for his labor.

TAZEWELL FARM BUREAU ANNUAL MEETING.

The farm bureau annual meeting at Pekin drew representative members from most of the townships in the county. Reports of officers and the county agent showed that the work has been going on satisfactorily and that results are good. Dr. Geo. N. Coffey, assistant state leader in county agent work addressed the meeting. President H. W. Danforth outlined ways in which the members could aid the work. He also stated the plans he has for organizing a state association of county farm bureaus.

Plans were discussed for organizing the members in the various townships of the county and extending the work this winter by means of conferences with members at the different towns. This work will be begun next week and continued thru the winter.

RAISE FEEDERS.

To my mind the logical man to make money feeding high class steers is the man who raises them, and if a man is going to raise steers, he should not attempt to raise anything but animals of the very best type and quality. This is largely a matter of breeding and in this case calls for a good pure-bred sire of any of the beef breeds that are commonly used.

It looks like a good and safe proposition to raise steers and fatten them out at an early age. It will be necessary to keep the calves growing from babyhood. They should not be allowed to lose theird baby flesh. It is a mistake to hold back grain from such calves with a view of getting more roughage into them. Silage can be used extensively for developing the calves. The cow herd can be maintained on it and cottonseed meal when there is not enough roughage in the fields. This plan would require that the cow herd use considerable coarse straw and fodder with perhaps a little grain several months before calving. Considering the low cost of keeping the cow herd in this way together with the advantage of turning the crops into manure to bring up the land to its maximum yield, it is reasonable to expect a very satisfactory return thru increased crops and profit from the sales of fat cattle. To try this plan a year and drop it will not be a fair trial . If it appeals to a man as a plan of farming he will greatly enjoy he will be almost certain to make it work out successfully.—T. E. L., in the Farmers' Review, Chicago.

THE SELF FEEDER FOR BREEDING GILTS.

By W. H. Pew.
Iowa State College.

The value of self-feeding methods for growing and fattening swine in the dry lot and on forage has been proved. Their use for breeding gilts has been seriously questioned by many.

The college herd of pure bred swine, maintained for instructional purposes, is composed of representatives of the Poland China, Duroc Jersey, Chester White, Hampshire Berkshire breeds. After the pigs were weaned in the spring it was determined that the gilts would be fed on self-feeders as soon after weaning as possible.

Accordingly about middle of June, 48 gilts in one feed lot with rape pasture, about evenly divided as to the above named breeds, were started according to the self-feeder plan. Shorts in one feeder, tankage in another, and oil meal in still another were supplied. Salt was supplied ad libitum also. Shelled corn was fed twice per day. In other words, the corn was limited. It was intended to keep the gilts thrifty but not too fat. About the first of October new corn, mostly soft, was fed instead of old corn. On October 15th these gilts were sorted, making two bunches: one of 21 to be kept for the breeding herd of the college; the second bunch of 27 were intended for sale purposes. The entire bunch of 48 on October 25th averaged in weight 180 pounds. The bunch of 21 kept for the college herd averaged in weight 240 pounds; all have been fed the same since the division was made. These gilts are thrifty, growthy and not too fat. To date the methods employed have been satisfactory.

A Little Milk Works Wonders in Pig Feeding.
(By John M. Evvard.)

Forty-five cents a hundred pounds for buttermilk looks high, doesn't it? Yet that is what the buttermilk was worth (skim-milk is equally as valuable) when fed in limited quantities to young, growing, weaned shotes directly after weaning until they reached a weight of 160 pounds. And this buttermilk was fed in addition to an apparently adequate self-fed ration, there being allowed in separate feeders these feeds: "70 cents a bushel" shelled corn, "$1.45 a hundred" wheat middlings, and "$2.50 a hundred" sixty per cent protein tankage.

Here is the record, which speaks for itself:—

Buttermilk has high value when fed in limited quantities. Five weanling pigs in a lot fed 100 days in dy lot (pigs having access to bone ash, charcoal and rock salt, but ate very little, hence not charged in this computation).

Shelled corn self-fed, wheat middlings self-fed, tankage self-fed—Initial weight per pig, 42. Final weight per pig, 155. Average daily gain, 1.13. Average daily feed eaten: shelled corn, 3.40; wheat middlings, .61; tankage, .62; buttermilk, none. Feed required for 100-lb. gain: shelled corn, 299.9; wheat middlings, 53.5; tankage, 54.6; buttermilk, none. Cost 100-lb gain, buttermilk at 25c, $5.90. Cost 100-lb. gain, buttermilk at 45.5c, $5.90. Profit per pig at $7.00 cwt., buttermilk at 25 cents, $1.25.

Shelled corn self-fed, wheat middlings self-fed, tankage self-fed, buttermilk not quite a quart per pig once daily.—Initial weight per pig, 42. Final weight per pig, 160. Average daily gain, 1.18. Average daily feed eaten: shelled corn, 3.54; wheat middlings, .44; tankage, .43; buttermilk, 1.84. Feed required for 100-lb. gain: shelled corn, 299.70; wheat middlings, 37.0; tankage, 36.0; buttermilk, 155.80. Cost 100-lb. gain, buttermilk at 25c, $5.58. Cost 100-lb. gain, buttermilk at 45.5c, $5.90. Profit per pig at $7.00 cwt., buttermilk at 25c, $1.68.

Practically speaking, less than a quart of buttermilk a day was instrumental in making a market saving in the protein concentrates required for a hundred pounds of gain, or 18.6 pounds of tankage plus 16.5 pounds of wheat middlings; or, to be more specific, the saving was affected by 155.8 pounds of buttermilk. Valuing the tankage at $2.50 and the wheat middlings at $1.45, this saving amounts to practically 71 cents for the 155.8 lbs., or approximately 45 cents for a hundred pounds of buttermilk.

Evidently the milk efficientiy furnished some of the feed nutrient constituents necessary to balance corn, which otherwise would have been furnished by the tankage and middlings, as was done in the check group receiving no buttermilk. Actually the "no buttermilk" fed pigs ate 16 per cent more protein daily than did the ones on milk, or 8 lbs. daily per 1000 lb. of hog as contrasted with only 7, seemingly the milk addition rendered the proteins in toto more efficient, hence less was required.

Perhaps buttermilk is especially rich in some vital nutrient that tankage or middlings have but little of; thus it could readily be seen that a little of the buttermilk would really surprise one because of its efficiency. An astonishingly small amount of some particular feed nutrients, not more than a thimbleful in some instances, may mean the difference between a 50-lb. and a 200-lb. pig—the difference between a dead pig at 6 months and a live 200-pounder at the same age. In human and rat nutrition such an effective substance would be called a vitamine—vital to life, growth, activity, and general development. We know milk has vitamines.

Of course, it is needless to remind that if five to ten times as much buttermilk had been fed daily that 45 cents a hundred would hardly be realized, altho 25 to 30 cents would be reasonably expected. But here is the main point: If the quantity of milk is limited it is a good plan to distribute it among a number of pigs (especially the young growing weanlings) rather than confine its beneficial physiological influence to a particular favored few.

MUD LAKE BOTTOM OPEN TO ENTRY.

Warren, Minn., Jan. 10—Eight thousand acres of Minnesota land, a part of the Red Lake Indian reservation, known as Mud Lake Bottom, will be thrown open to entry and settlement early next spring, according to an announcement by local agents today, based on information received from the general land office in Washington.

Twice before the interior department has made arrangements to open this land, which is located in the eastern part of Marshall county, but certain complications arose and delays ensued.

Mud Lake bottom was not an agricultural section, but a body of water known in Minnesota as good fishing and hunting territory until drainage operations carried off the water. Lands along the banks had been patented to various "riparian owners."

After the draining, squatters appeared on the choice portions and as a result disputes arose between riparian owners and the intruders as to legal title. Litigation along this line is expected after the spring opening.

The money obtained by the government from the opening will go to the Indian fund, it was stated.

TAX BOOKS IN HANDS OF SHERIFF

County Clerk Boruff on Monday turned over the tax books to Sheriff Graff for the collection of taxes. Something that is not generally known is that with the turning over of the books to the sheriff there is a judgment standing against all persons liable for personal tax and the Sheriff can immediately collect the same or levy on any personal property subject to taxation. Chief Deputy Green will immediately begin the collection of taxes.

ANNIVERSARY OF OPENING OF OPEN AIR SCHOOL

School Has Thus Grown in Pupils and Influence—Addresses of Interest Given.

An important birthday in one enterprise took place yesterday and that was the anniversary of the opening or beginning of the open air school in this city and the faithful and efficient teachers,, Misses Laura Hammond, principal, and Miss Ruth Peak, assistant, made the day very pleasant for the children.

The school has grown from a modest beginning of twenty to about twice that number. Edith Leopold has not been absent since the school opened a year ago except during vacation, tho before that time, when she was a pupil in the other public schools she had been able to attend but 23 days in almost four months Bertha and Herbert Hickox have been absent but one day and that was when everything was covered with sleet. Twenty-seven have not a tardy mark since September. The school admits those with tuberculous tendencies and the great effort is to improve both misd and body and the success has been gratifying both in a mental as well as a physical way as some good grades have been made equaling those attained by normal pupils in the other schools. Five pupils have so improved that they have ben returned to the regular grade schools.

The children receive a good lunch at nine in the morning and a substantial dinner at noon and then all are stowed away on cots under warm blankets for an hour when they may sleep if they wish or rest with open eyes as they prefer, but all under the covers.

Supt. Collins was with the children at dinner and was a much interested and interesting visitor. He talked to the children about their progress and asked them a number of questions and was much pleased by the manner in which the children responded and the progress attained. The gentleman talked to them along the lines of work and the children were glad to answer the questions and hear what he had to say.

In the morning Mrs. E. P. Cleary visited the school and gave out the badges won by those selling Red Cross Christmas seals. The boy prize was won by Bert Avery who sold 220 seals and Melda Milwid earned the prize for the girls.

In the afternoon Rev. M. L. Ponius visited the school and made an interesting talk and Miss Agnes Lusk and Mrs. David Reid did the same. Mrs. Reid spoke in a very happy vein and gave the children a grand idea of what it meant to strive, to conquer obstacles under great difficulties. Earl Wylder had been invited but was prevented from being present. The entire duy was quite interesting and great credit is due Misses Hammond and Peak for what they have accomplished.

A MIDGET VISITOR.

Mr. and Mrs. Logan Black are enjoying a visit from a lady who claims to be the smallest woman in the land. Her name is Daykin but she conducts her business under the name of Doletta. Though fully mature she is but 28 inches high and enjoys good health and except possibly for size, she is normal every way.

She was born in Clayton, Adams county, and was the daughter of B. F. Dadd, a civil engineer. No unusual circumstances attended her birth and she attained the age of maturity with her diminutive stature. She has several brothers and sisters of ordinary size. She was married to Mr. Daykin in 1905 and is the mother of two children, a daughter aged ten and a son four. Her husband is but 42 inches tall and she can stand under his arm. Her children are normal and the daughter is now a great deal taller than her mother.

Three years ago when Mr. Black was exhibiting ponnies in Syracuse, New York, the little lady bought a span and a diminutive carriage which she uses in her business . She told Mr. Black at that time that she would visit him if she ever came at all near his home and she is keeping her promise. She is a lady of pleasing manner, bright, inteligent and vivacious. She conducts exhibitions in which she is quite successful. She expects to go from Mr. Black's to Beardstown to visit a brother and sister who live there.

BREAKS A COLD IN FEW HOURS-TRY IT!

First Dose of Pape's Cold Compound Relieves All Grippe Misery.

Don't stay stuffed up!

Quit blowing and snuffling. A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running, relieves sick headaches, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Adv.

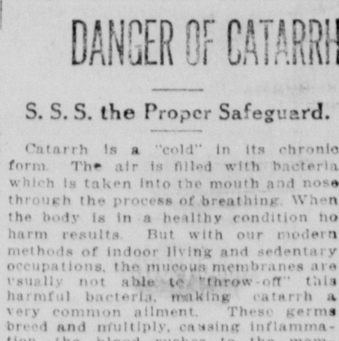

THE "ENDLESS CHAIN" DANGER OF CATARRH

S. S. S. the Proper Safeguard.

Catarrh is a "cold" in its chronic form. The air is filled with bacteria which is taken into the mouth and nose through the process of breathing. When the body is in a healthy condition no harm results. But with our modern methods of indoor living and sedentary occupations, the mucous membranes are usually not able to "throw-off" this harmful bacteria, making catarrh a very common ailment. These germs breed and multiply, causing inflammation, the blood rushes to the membranes to fight off the bacilli. When the blood is in a vigorous condition its "defensive" efforts are successful. Otherwise the cold "hangs on"—turns into catarrh.

Catarrh is a chronic inflammation of the mucous membranes. Mucous membranes are the lining on all the internal cavities of the body. Get that—ALL cavities! There is the "endless chain" element of danger.

The only way to treat catarrh is to purify the blood. The surest way to purify the blood is to take S. S. S. Write us for special advice. Swift Specific Co., Atlanta, Georgia.

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.

Take one or two nightly and note the pleasing results.

John Dane gave up, and sold his farm for $2200

And the man who bought it got his money back in two seasons.

For 20 years John Dane failed to make a living on 64 acres. He tried corn, truck and other crops that he could have sold in a good market four miles away. But the farm did nothing except sprout seed.

The new owner took it in the winter. Although there was no rain from May 10th to September 1st, he produced and fed $1800 worth of silage to beef cattle—the first good crop that farm had borne in 20 years.

And that first summer he increased the fertility so much that the next season he got the whole purchase price back.

And he's made a living plus ever since.

How?

He did it by practicing the kind of farming that is found every week in

WHY DINING CAR CHEFS PREFER KC BAKING POWDER

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—*that sustains the raise*—until the dough is baked through.

Dining Car Chefs have found a baking powder exactly suited to their needs in K C and you will find it just as well suited to your requirements. K C is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. No matter how moist and rich you make your cake, K C Baking Powder will sustain the raise until a crust is formed and all danger of falling is past.

K C Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more.

WORK DONE BY EQUAL SUFFRAGE ASSOCIATION IS REVIEWED

News Letter Issued by the Association Tells What Has Been Accomplished by Members in Various Localities—Civic League Here Affiliated.

The Illinois Equal Suffrage association has issued the following news letter pointing to the objects of the association and some of the work done.

The Illinois Equal Suffrage association invites every woman in the state who does not know of its object and its purpose to immediately get into communication with the president, Mrs. Harrison Monroe Brown, at 604 Tower Building, Chicago. Mrs. Brown spends all the time possible at the headquarters, located as above mentioned, only being away when upon a suffrage mission and will be glad to answer any inquiries concerning suffrage work, or to help any woman in any locality to a better understanding for what the association actually stands and what it hopes to accomplish. Either write or call personally and every attention will be given to all inquiries.

The executive board of the state association is composed of sixteen earnest and efficient women, some of whom reside in Peoria, Monmouth, Belleville, Urbana and Freeport. This board meets in regular session the first Tuesday of each month at ten o'clock in the forenopon and always has an all-day session. The work is hard and wearisome. The eyes of the whole world are upon Illinois and "all the people of all the nations" are watching to see what is being accomplished by this body of women and men who are asking that full suffrage be granted to Illinois women.

With the partial franchise which Illinois women have had for the past two years, they have been instrumental in building a number of high schools, new depots; establishing playgrounds, bathing pools, rest rooms at county fairs, street vigilance committees, drinking fountains, safety gates, libraries, curfew ordinances and water systems, and have brought about commission form of government in a number of places, installed a number of domestic science schools, in placing women as judges and clerks of election and librarians and school trustees, and have closed a number of "red-light" districts.

This is only a beginning of the work along lines of endeavor laid down by this great association. No woman can afford to be outside of an organization which is doing such wonderful work. Every woman is interested first in her own home, her own community and finally the state and on into a wider field. The state association by its endeavors and by things already accomplished shows that its interest lies in the home and the communal interests which primarily effect the home. It is a safe proposition and every woman should put her stamp of approval upon such policies by joining efforts and aiding in this great undertaking.

The Woman's Civic league of Jacksonville is affiliated with the suffrage association and those who become members of the league will thus assist in the association work.

RSOLUTIONS OF RESPECT.

Wheras, God in his infinite wisdom and mercy has seen fit to remove from our midst our beloved friend and fellow member, Edwin Beggs, who departed this life on Friday, January 7, 1916,

Therefore, be it resolved, that Post O. of the Travelers Protective Association of America, in special meeting assembled, hereby extend to his family and relatives our heartfelt sympathy and condolence in this sad hour of bereavement.

And further more be it resolved, That in the departure of our friend Edwin Beggs, to that bourne from whence no traveler returns, There ended a life of a friend whose heart was big and tender, Whose many acts of good filled our lives with affection for him.

Be it, Resolved, that a copy of these resolutions be presented to his bereaved family, also spread upon the records of Post O.

"CASCARETS" BEST IF HEADACHY BILIOUS, SICK, CONSTIPATED

Best for Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.—Adv.

NATIONAL LEAGUE TO OBTAIN WAIVERS ON SEVERAL CUBS

NEW YORK, Jan. 10.—The National League office here, it was announced tonight has been furnished with the names of a number of players who were with the Chicago National League Club last season and has been requested by the new Chicago owners to obtain waivers on them from the other National League clubs.

The list does not include any of the men who were with the Chicago Federals last season.

The National League also has been furnished with a list of players by the St. Louis Americans and has been asked to have its clubs waive on them. The American League teams already have waived on these players, it is said. The list, it was said, contains the names of players who were with the St. Louis Federal League team last year, as well as the St. Louis Americans.

This is taken to mean that the St. Louis Americans must ask waivers on their former Federal League players, the same as on any other players on their roster.

APPROPRIATION ORDINRNCE PASSED BY THE COUNCIL

Paving Talk Indicates Active Work Planned for Year—Anti-Cider Ordinance to be Uniformly Enforced—Seek to Know Railway Company's Attitude on Paving.

The most important business transacted at the city council session Monday morning was the passage of the appropriation ordinance. This measure was given second reading and adopted. In the course of a short time the tax levy ordinance will be introduced and passed in the council, and about February 1 the city will be in position to anticipate the taxes of the coming year. After the usual formalities reports from departments were called for but there were no detailed reports to be given. On motion of Mr. Wrimayer, the city clerk was authorized to advertise for bids for the city printing during the current year.

Water Bill Objections.

Because of recent strenuous objections made by a consumer on account of a water bill, Mayor Rodgers said that water consumers should recognize that no commissioner has the authority to vary the charge made for service. He said that the charges are fixed by the ordinance and there could be no variation with out changing the law. If a consumer objects to the rates and believed an injustice was being done, he might ask for revision of the ordinance, but in seeking a rebate of charge he wants something which the council has no authority to grant. Mr. Vasconcellos said he received so many complaints along this line that he was rather hardened to them. The last objector threatened to take the matter before the state utilities commission, and Mr. Vasconcellos said he told him to go right ahead.

Mayor Rodgers mentioned small balances which remain in certain public improvement funds ranging from 2 cents to $40 or $50. By resolution the clerk was instructed to transfer all these balances to a contingent special assessment fund from which it will be possible to meet the deficiencies in several other funds and thus pay off outstanding bonds.

Timothy Keating was present to protest against the enforcement of the anti-cider ordinance, maintaining that it was not fair to permit grocers to sell cider and to prohibit the same practice in soft drink establishment. He was assured that there was no favoritism shown and that any man—grocer or otherwise—who sold cider was doing so in violation of the ordinance. The mayor said that the council regretted it had been necessary to pass the anti-cider ordinance, but conditions were such that it was deemed the only proper course. Commissioner Martin said that some of the "sweet cider" sold had been analyzed and found to contain almost four per cent alcohol.

Sdiewalk Talk.

Mr. Cox asked about sidewalks for the coming year and the mayor said he would shortly ask thru the papers as he had some time ago, that citizens write the council and designate places where sidewalks are particularly needed. His idea is that unsigned communications may be sent and this will call the council's attention to places where walks were needed and then investigation will be made. The sidewalk improvement work will not be confined to these suggestions but they are intended to be supplementary to investigations that the council will make itself. Mr. Cox, who has charge of this department, expects to make a general investigation and report about conditions of walks, and the city engineer is to assist him by securing legal descriptions and making the necessary surveys.

Mr. Miser was present and Mayor Rodgers asked him if he could state what would be the attitude of the Jacksonville Railway & Light company toward paying for the paving projected for this year. Mr. Miser asked which street was to be paved first and the mayor's reply was, "South Main, West State and East State," indicating that all this work is to be donle as speedily as possible this spring and summer.

Street Car Improvement.

Mr. Miser said that he expected to go to Peoria today to confer with Mr. Chubbuck about the appropriation for the Jacksonville street railway this year, and that in a short time he would be in position to answer the question. He said further that he was in doubt whether the best plan for this year was to have new street cars, which would occasion an expense of about $40,000 or to put the old cars into good condition and have the balance of the fund available to meet the company's portion of the projected paving. He asked the council's view about the street railway equipment improvement. Mayor Rodgers replied that it was not a question for them to decide, as no matter what their opinion, any person who so desired could go before the utilities commission and make complaint about the service. He expressed the thought tho, that the main thing the people wanted was to have service regularly that could be depended on to run on schedule. Mr. Miser's idea is that the present cars might be equipped with wide seats instead of those now in use and that by enlarging the platform areas that they would be more convenient for patrons entering and leaving the cars.

Referring to the paving again, Mayor Rodgers said that it would be entirely satisfactory for the company to pay their assessment in installments just like any other property owner if they so desired. The mayor also asked about the company's intentions as to gas mains stating that whatever work was contemplated in this regard should be prepared for now so that there would be no delay on that account when the paving work is in progress. Then there was some discussion of gas pressure and Mayor Rodgers suggested an arrangement with a fan at the plant whereby he believed the gas pressure could be improved. It was the understanding that Mr. Miser will answer the question propounded shortly after his return from a conference with Mr. Chubbuck.

Officers' Reports.

Officers' reports were as follows:

Chief of Police George P. Davis reported for the month of December forty arrests—city cases, thirty; state cases, ten ;amount collected $108. These cases were divided as follows: concealed weapons, 1; running motor, 3; disorderly conduct, 12; vagrancy, 7; violating speed ordinance, 3; drunkenness, 7; statutory charge, 2; disturbing the peace, 4.

The report of Dr. A. M. King, health warden, showed forty-one deaths during the month of December, of which seventeen were at Jacksonville State hospital. The deaths were diveded as follows: under 1, two; 20 to 50, ten; 50 to 70, fifteen; over 70, fifteen. The report of contagious diseases showed nine cases of whooping cough, four of chicken pox, one of diphtheria and one of smallpox.

The report of J. M. Coons, Justice of the Peace, showed fines collected $47; city costs $21; J. P. costs, $40.

SYRACUSE BUYS MATTISON.

Philadelphia, Jan. 10.—The management of the Philadelphia Nationals announced today that Pitcher Mattison had been sold outright to the Syracuse, New York State League team.

CALL OFF PROPOSED TRIP.

Louisville, Ky., Jan. 10.—The Louisville American association baseball club's proposed training trip to Florida has been called off. President O. H. Wathen, announced today that the team would train in Tennessee, probably near Nashville.

JOINT INSTALLATION OF KNIGHTS OF PYTHIAS.

CLEANSES YOUR HAIR MAKES IT BEAUTIFUL THICK, GLOSSY WAVY

Try this! All dandruff disappears and hair stops coming out.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed. Adv.

FOREIGN CORRESPONDENCE
(By The Associated Press.

Wellington, New Zealand, Jan.—Remarkable performances in the way of close shooting upon the Gallipoli Peninsula are recorded of the New Zealand official war correspondent, Malcolm Ross, reports that toward the end of August a major of infantry telephoned calling attention to the fact that the New Zealand howitzers were dropping shells into a Turkish trench only five yards in front of the trench occupied by his men. He therefore asked the battery to cease firing at that particular trench inasmuch as the battery commander fully trusted his men and his guns even with a margin of only five yards. The reason for this close fire was because the infantrymen in the front trench had apparently run out of bombs and were being severly dealt with by the Turks.

During the urks' counter-attack on the night of May 19 the New Zealand No. 2 battery of field artillery fired 611 rounds of shrapnel at Turkkish trenches only 20 yards distant from the Australasian trenches. The shells shrieed continuously over the heads of the Australians crouchnight there was only one premature burst. As it was a dark night and the range only 1,600 yards giving necessarily a very flat trajectory, "the feat," the correspondent says, "involved accurate and careful 'laying' on the part of the gunners, he slightest error such as the short setting of a fuse would have been serious under such circumstances."

But that close shooting in the Dardanelles operation occasionally accidentally worked havoc among the British forces is shown by the fact that on the afternoon of August 8th when Colonel Malone with a handful of New Zealnad infantrymen was actually within sight of the Nerrows, having surmounted the Sari Bahr ridge, he was killed by shrapnel being fired by British warships at the heavy Turkish counter-attack, and that there were numerous other casualties among the New Zealanders from the same cause.

G. W. Graff who came here to attend the funeral of Edwin Beggs at Ashland has returned to his home in McLeansboro.

WORLD'S MARKET NEWS

ENLARGEMENT OF VISIBLE SUPPLY WEAKENS WHEAT

Prices Close Weak at ⅝ to 1⅝ Cents Net Lower—Corn and Oats Score Gains.

Chicago, Jan. 10.—Notwithstanding that wheat today at first showed strength, the market later became heavy on account of a liberal enlargement of the United States visible supply total. Prices closed weak ⅝@⅝c to 1⅝c net lower, with May at 1.24⅝ and July at 1.17½@⅝c. Corn scored a gain of ¼@¼c and oats of ⅛@¼c@⅜c. Provisions finished at a range varying from 2½ off to 1½c advance.

Enlargement of the visible supply total received emphasis from the fact that the record at the corresponding time last year was in decided contrast the 1915 figures having shown a substantial falling off. Absence of any signs of fresh purchasing for Europe tended further to discourage the bulls.

Bearish sentiment was augmented by the fact that no adequate relief had yet been given to the congestion at the seaboard and at intermediate terminals. For example, Kansas City sent word that the accumulation of wheat had brought about a scarcity of storage room for coarse grain and that 3,000 cars of wheat were standing in the railroad yards waiting a chance to unload.

As for diminished receipts northwest there was more of an offset later in reports that Canadian wheat was coming to Minneapolis one firm alone having obtained about a hundred cars.

Corn went to a new high price record for the 1915 crop. Talk of a good European demand was chiefly responsible.

Provisions had a notable advance, despite the huge supplies of hogs arriving here and other western centers.

SELLING PRESSURE PREVAILS DURING GREATER PART OF TRADING

Sentiment Over the Week End Appears to be Increasingly Pessimistic.

New York, Jan. 10.—Selling pressure prevailed during the greater part of today's irregular trading with variable and substantial decline in some of the more active issues. Sentiment over the week end appeared to be increasingly pessimistic.

Labor troubles proved more than an offset to the improved foreign situation and assurances of the attorney general that the department of justice intends to adopt a more lenient attitude toward innocent offenders of the anti-trust laws.

United States steel continued as the pivot around which the market revolved. Opening at 87⅝, the stock soon fell to 86½. This was prior to the issuance of the December tonnage statement, showing an increase of about 617,000 tons unfilled orders over the preceding month. Steel's minimum was made in final dealings closing at 85⅜, a loss of 1⅛.

Actual weakness developed during the forenoon in all the oil stocks, American Smelting and other metals the automobile group and recognized war shares. These issues were at lowest levels at the close. The railway list was under restraint throughout.

Total sales of stocks amounted to 630,000 shares.

The strength of marks and weakness of lires or Italian remittances were the chief features of the foreign exchange markets.

Activity of New York Central six per cent debenture featured the dealings in bonds that issue rising 1½ per cent to 117½.

Total sales of bonds par value were $4,950,000.

United States bonds were unchanged on call.

JANUARY CLEARING SALE

10 DAYS--BEGINS WEDNESDAY, JANUARY 12, 9 O'clock

THIS YEAR, more than any year in our business history, there is a decidedly upward tendency in all kinds of Dry Goods. Prices will not be lower. There are many reasons—the dye stuff situation—cotton, silk and wool are higher. Behind all there is the war. With all the unexpected changes in eommercial life, nevertheless, we have a lot of Winter stuff we must part with at prices to make speedy removal. We'll need the room for Spring Merchandise.

OCEAN TO OCEAN HIGHWAY ASSOCIATION WILL MEET

Third Annual Session Will be Held in St. Joseph Feb. 2—Important Work Planned Along Route.

The third annual meting of the Pike's Peak Ocean to Ocean association has been called to convene in St. Joseph, Mo., Wednesday, February 2, at 10 o'clock a. m. In announcing this meeting the officers call attention to the necessity for making plans at the beginning of this year for the greater development of this route and for the presentation to the motoring public of further information as to its logical and natural advantages. Plans should be made to complete the marking, mapping and logging of the highway; to stimulate a greater development of the various sections, and to advertise the route more widely. It is claimed that transcontinental travel during the year 1915 demonstrated certain advantages this highway has which today give it recognition as one of the three main trans-continental routes.

In the call for the annual meeting, the officers say:

"The Pikes Peak Ocean to Ocean Highway association now has its own definite organization between Indianapolis, Indiana, and Salt Lake City, Utah. The time has now come to complete an independent organization from the Atlantic to the Pacific Coast. During the year committees have been at work, investigations have been made, and much correspondence has been carried on with reference to connections east of Indianapolis and west of Salt Lake City. Representatives of routes desirous of affiliating with the Pikes Peak Ocean to Ocean Highway association are hereby invited to attend the third annual convention at St. Joseph, Mo., on Feb. 2, 1916.

"State divisions of the Pikes Peak Ocean to Ocean Highway association, county commissioners, commercial associations, road organizations, automobile clubs, city and county officials and all others interested in the highway are invited to attend and to appoint delegates. Each constitutent state division is entitled to five votes in the annual meeting, to be cast by the delegation in attendance. Election of officers for the coming year, including two members of the executive committee from each state, will be held at the annual meeting.

"Delegates will be the guests of the Commerce Club of St. Joseph and the Automobile Club of St. Joseph; add they are invited to attend a luncheon of the Commerce Club at noon on Feb. 2, which will be devoted to the interests of the Pikes Peak Ocean to Ocean Highway and the Good Roads Movement in general."

Charles Seymour has returned to his farm in Franklin after spending Sunday with his family in the city.

COLLEGE OF MUSIC.

The College of Music has opened after the holidays with a full enrollment; and several new students have begun work. All of the teachers are back much benefited by the brief rest.

Mr. Stearns and Miss Lazelle gave a concert before the Monday Musical Club in Petersburg with great success.

Mrs. Hartmann sang before a large gathering of guests at the Del Prado Hotel in Chicago; at the Sacred concert of the Woman's Clubs in Fon du Lac and at the New Years service there. In all of these engagements, Mrs. Hartmann met with a well deserved success.

Mrs. Day of the violin faculty, gave a recital at Granite City during the vacation.

The second of Mr. Stearns series of Vesper Organ recitals occurred on Sunday afternoon, Jan. 9, at 4 o'clock Mrs. Hartmann assisting.

The first pupils recital of the New Year will take place next Thursday afternoon, Jan. 13, at 4:15. An interesting and varied program has been arranged.

Mrs. Hartmann's recital will occur Monday evening, January 31st, and the next Vesper Organ recital on Feb. 6th.

The orchestra will begin its rehearsal on next Tuesday, Jan. 11th, at 7:30. A program is in preparation, the date of which will be announced soon.

ADDRESSES STUDENTS.

Earl Wylder gave the pupils in the David Prince building a very interesting talk on the national forests Monday afternoon. When young men of his stamp are selected to fill such positions as he holds it is encouragaing and helps one to believe that fitness sometimes, at least, is a deciding factor in making an appointment to a public office.

ADMINISTRATOR'S NOTICE.

Estate of John R. Loar, Deceased.

The undersigned, having been appointed Administrator of the estate of John R. Loar, late of the County of Morgan and State of Illinois, hereby gives notice that he will appear before the County Court of Morgan County, at the Court House in Jacksonville, at the March term, on the first Monday in March next, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

All persons indebted to said estate are requested to make immediate payment to the undersigned.

Dated this 3rd day of January, A. D. 1916.

Sarah M. Loar, Administratrix.

CARL H. WEBER HAS ENTERED COUNTY CLERK'S OFFICE

Appointment Made Months Ago With Agreement that Mr. Weber Would Assume Duties in January.

Carl H. Weber yesterday entered upon his duties as deputy in the office of County Clerk Boruff. The appointment was made late last summer but was not known publicly because Mr. Weber desired to continue to act as secretary of the Chamber of Commerce until the present time. He will devote some further time to the work in the evening and as he can in the day time for the coming three or four weeks, and the directors will not appoint a successor until that time.

Mr. Weber succeeded Paul Fritchey as secretary and brought to the position a great deal of ability and enthusiasm. Prior to engaging in this work he had been for several years a bookkeeper at the bank of F. G. Farrel & Company, where his services were greatly valued. When he entered upon the duties of secretary it was with the idea that he would have some time to devote to the study of laws which he began several years ago, but he has found that the duties of the position were such that he had very little time, even in the evening for study. The deputyship was offered to him by Mr. Boruff and he decided that the training in the office would be valuable to him in the law work which he hopes to undertake within a few years' time.

Mr. Weber has been a very popular secretary of the Chamber of Commerce and has shown himself an indefatigable worker. The boulevard lighting system is due very largely to his energy and he has done good work along many lines. While he has been so energetically active, he has so handled affairs of the Chamber of Commerce that he has kept on good terms with all of the membership and he will leave the position of his own accord, leaving an excellent record.

SINGING PLEASED.

Two audiences had the pleasure of hearing Mrs. Helen Brown Read sing Sunday. First at the Congregational church the gifted singer delighted those present with her rare talent, attracting an unusually large congregation. At the State school for the Blind in the afternoon she sang again and those who heard her were much pleased. It was a kindly act and the students fully appreciated the goodness of the talented vocalist.

IN NEW POSITION.

J. W. Boyd of 215 East College avenue, a veteran traveling salesman, has taken a new position, one with the Shawknit Hose company of Lowell, Mass., and began business by taking several orders from local merchants yesterday.

SPECIAL TAX NOTICE.

Notice is hereby given, to all persons interested, that the City Council of the City of Jacksonville, Illinois, having ordered the roadway of East State Street in said City, beginning at the East line of Alley 'D' where the same intersects said East State Street, and running thence East to a point eighteen (18) inches West of the west rail of the tracks of the Chicago, Burlington & Quincy Railroad Company, be paved with crushed stone and a coal tar compound binder, the same width as the present pavement, except the right of way of the Jacksonville Railway Company, which shall be paved with brick upon a crushed stone and concrete foundation after being excavated seventeen (17) inches below the finished grade of the pavement, all of which is more particularly described in the Ordinance therefor; the Ordinance for the same being on file in the office of the City Clerk of said City, and said City having applied to the county court of Morgan county, Illinois, for the confirmation of the assessment of the cost of said Improvement according to the benefits and an assessment therefor having been made and returned to said Court; the final hearing thereon will be had on the 26th day of January, A. D. 1916, at 10 o'clock A. M., or as soon thereafter as the business of the Court will permit, and all persons desiring so to do may file objections in said Court before said date, and may appear on said hearing and make their defense.

It is further provided by said ordinance, that said assessment shall be collected in ten (10) instalments, with interest at the rate of five per cent, per annum, as provided by law.

Dated at Jacksonville, Illinois, this 10th day of January, A. D. 1916.

Walter B. Rogers,
Commissioner appointed to make said Assessments.

Mr. and Mrs. C. F. Corrington have returned to their home in New Berlin after a visit with friends and relatives in the city.

"TIZ" EASES TIRED, SORE SWOLLEN FEET

Instant Relief for Aching, Puffed-up, Calloused Feet and Corns.

Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "Tiz" from the drug store now and gladden your tortured feet?

"Tiz" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "Tiz" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.—Adv.

FOR BRONCHITIS, WHOOPING COUGH CROUP, COUGHS AND COLDS

Make the Best Remedy at Home —128 Teaspoonsful for 50 Cents.

If everything was sold in as liberal and fair a manner as M. E. Gilbert is selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. This druggist says, "Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe CoCugh, Croup or any Bronchial Affection, and we will return your money, just as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador or "Money Back" if not perfectly satisfied. R. J. Schiffmann, Proprietor, St. Paul, Minn.—Adv.

ILLEGAL SELLING OF LIQUOR CASES UP IN COURT

Case of Edward Konrad Will be Continued for Lack of Witness—Ella Revis Case Will Begin Today.

Judge W. E. Thomson convened county court Monday for the trial of several case for the illegal selling of liquor in anti-saloon territory. The first case called was that of the people vs Edward Konrad. A jury venire had been summoned and when the case was called it was discovered that one of the witnesses for the state was not present. This witness was James Fitzpatrick. State's Attorney Tilton said he could not go on with the case without this witness. He asked for a continuance and also that an attachment be issued for Fitzpatrick. The court granted the continuance and ordered that the attachment be issued.

The case of John Konrad on the same charge is the first case called for this morning. Attorney W. T. Wilson of the firm of Kirby, Wilson and Brockhouse, who are representing Konrad asked for a bill of particulars and a list of witnesses. The state's attorney said that he would be furnished it by 8:30 Tuesday morning. Mr. Wilson entered an objection to this, saying that they wished a little time to prepare for the case as they knew nothing about it. The court ordered that the bill of particulars and the list of witnesses be filed by 4 o'clock Monday afternoon.

The second case on the docket today is that of the people vs Ella Revis charged with selling liquor in anti-saloon territory. John M. Butler is attorney for Mrs. Revis. He asked for a list of witnesses which was furnished and also a bill of particulars. The court ordered that the bill of particulars be filed by 9 o'clock this morning.

FRED KERN PRAISES WORK DONE BY GOVERNOR DUNNE

President of Board of Administration Believes Great Good Will Come From Governor's Visits to State Institutions.

The Belleville News-Democrat, of which Fred J. Kern, chairman of the state board of administration is the owner and editor, in the last issue publishes a long editorial commenting upon Governor Dunne's determination to personally inspect the state institutions. The editorial which strongly commends Governor Dunne reads in part as follows:

"Governor Edward F. Dunne, of our state, is at present engaged in doing a thing which no other Governor before him ever attempted, and by doing so he is setting a pace and creating a precedent which will be sure to be followed in the future and by coming Governors of Illinois. He is making a careful and thorough personal inspection of each and every one of the state's charitable and also of the penal institutions.

"He has now visited ten of these institutions, accompanied by Hon. A. L. Bowen, secretary of the State Charities Commission; Dr. Geo. A. Zeller, member and alienist of the Board of Administration; Mr. James Hyland, member and secretary of the Board of Administration; and Hon. Fred J. Kern, president of the Board of Administration.

"The task will be concluded when all of the twenty-four institutions which comprise the charitable and the penal group have been visited and inspected. The initiative in the policy which Governor Dunne has adopted was really taken by Frederick the Great when the marvelous man ruled over the destines of Germany away back in the eighteenth century. He believed that the executive head should take a personal interest in the administration of the affairs of his government.

"After Governor Edward F. Dunne was inaugurated to the position which he now fills, he outlined certain definite policies in connection with the management of the charitable and penal institutions, as well as the other departments of the state government. He expressed the firm resolution to abolish physical or mechanical restraint and seclusion, or the dungeon, or solitary confinement, in connection with the handling of the poor, sick, unfortunate patients in the insane asylums. He furthermore demanded that all other forms of brutality and cruelty be eradicated from these institutions, and that kindness and decency and humanity be put into their stead.

"He also demanded that corporal punishment and other forms of cruel and unusual penalization be discontinued in the reformatory and educational institutions of the state, and that the whip and the strap and the cow hide and the cat-o-nine-tails be thrown upon the scrap-heap or sent to the museum of antiquities to be exhibited in connection with other relics of barbarism, on the theory that the whip never reformed any child, and that it is by far better to rule over children with love than by fear.

"In addition to these orders, the Governor insisted that the cottage plan of construction be adhered to in new institutions to be created in his administration, viz: in the building of the Colony for Epileptics at Dixon and the new Alton State Hospital, as well as additions to be made to the established institutions, on account of its greater brightness, efficiency, modernism and elegance.

"In the penal institutions Governor Dunne ordered the humane methods be given the right-of-way, and that the honor system be introduced and that provisions be made to work the convicts on the roads and in the fields, in the fresh and pure air, and in the health-giving light of God's sun, and that, even tho felons and convicts, their sacred human rights as men and women, created in God's own likeness, be respected by their keepers.

"Governor Dunne had sense enough to know that there was little chance of achieving these great and epoch-making reforms unless the public service of the state was pulled out of the slough of despond and elevated and improved.

He knew that it was in vain to ask nurses and attendants in these institutions to be kind and the christian and considerate and humane, so long as the state was barbarous to them, and demanded of them the sacrifice of their health and their life by working unreasonably long hours at their nerve-racking tasks, and by keeping their noses incessantly on the grindstone, for a mere pittance in pay, under frightfully insecure tenure in office.

"He knew that something radical had to be done to correct the abuses and to eliminate the evils complained of, and which prevailed and were a stench in the nostrils of all good citizens.

"After careful conference with his subordinates he ordered the adoption of the eight-hour system, the promotional system of advancement in the institutional service, with automatic increases in pay as they are earned by actual and faithful devotion and work, one day's rest out of seven, and a two weeks' annual vacation with pay, and the concession of the right to all employes in the state institutions to maintain an organization for their own protection and for the presentation of their grievances and their petitions and implicit good faith and perfect honesty in the keeping and living up to Democratic platform pledges as to civil service and the merit system.

"The main purpose of Governor Dunne's present memorable trip is to see to it that these policies have been honestly introduced and that they are actually enforced, without evasion, without equivocation and without four-flushing; with sincerity, earnestness and fidelity.

"The Governor also desires to find out whether his highest expectations in the fruits which these policies were expected to produce are in reality being actualized.

"The State Charities Commission is strong in its endorsement and approval of the new policies, and regards them all as a wonderful advance in the doing altruistic and public welfare and charitable relief work. Governor Dunne's inspection tour is to be continued until all of the state institutions have been visited and inspected, from cellar to garret, in whole and in detail, by himself individually and personally.

WILL HOLD MEETING IN INTEREST OF GOLF AT PARK

At the Peacock Inn there is to be a meeting next Monday evening of those interested in the game of golf. As has already been stated in the Journal, the park board stands ready to do all in its power to assist in preparing the grounds at Nichols Park for the benefit of the players and has agreed to appropriate $500. if the ones interested in golf will give a like sum for the purpose. A great many have used the golf links on the north side of the lake and when the domains are extended to the south side the attractions of the links will be much greater.

A large number played on the links the year past and it is probable that a good many more will play there this year and hence there will probably be little trouble in securing the $500.

The park board is well inclined to the golf links and will dow hat it can and the players will have to do the rest and that they will do cheerfully no doubt. A large attendance at the meeting is desired by those who are promoting the interests of golf. The country club organized still keeps alive and chooses officers annually tho that is about all it does. The meeting of that body will take place at the same place Monday evening.

Yes we have lots of those swell 50c fancy shirts. T. M. TOMLINSON.

FUNERAL SERVICES FOR LATE EDWIN BEGGS

Large Number Pay Tribute to Memory at Ashland M. E. Church.

Although the weather was so inclement Sunday the funeral of the late Edwin Beggs was very largely attended, the audience filling the Methodist church to its utmost capacity. Relatives, friends and neighbors from near and far were there and all reverently to pay a tribute to the memory of a good and useful man.

The pastor of the church, Rev. J. E. Artz, read the scripture lesson and offered prayer while Rev. F. A. McCarty, D. D., district superintendent, delivered the sermon and the exercises were all plain and simple according to the wish of the friends. Dr. McCarty paid a fitting tribute to the character of Mr. Beggs whom he had known intimately and described him as an upright and respected citizen, neighbor and business man, prominent in church work, honest and unassuming, plain and straightforward in his intercourse with his fellowmen.

Mr. Artz read a biography of Mr. Beggs and resolution passed by the Business Men's Association of Ashland, the official board of Ashland M. E. church and other bodies.

A wealth of flowers in bouquets and designs was contributed by friends, organizations and business associates and were in charge of Mrs. J. E. Artz, Mrs. J. J. Wyatt and Mrs. C. W. Savage.

At the conclusion of the services the remains were borne to the cemetery by Messrs Walter S. Rearick, J. J. Wyatt, Charles R. Lewis, Charles Mitchell, William Lynn and J. H. Hubbs, intimate friends and business associates of Mr. Beggs.

The Chicago & Alton company ran a special train of three coaches leaving this city at noon and returning at 4:30 and some sixty or more attended from this vicinity.

SEARCH FOR EVIDENCE.

Chicago, Jan 10—H. G. Clabaugh, head of the local staff of United States department of justice investigators, admitted today that government agents were searching for possible evidence that the strike at the Edward Valve Manufacturing company here might have resulted from a plot to tie-up the plant because it was making war supplies. John Butler, head of the shop committee of the International association of Machinists, denied there was any plot.

DISCOVER THREE STOWAWAYS

San Francisco, Cal., Jan. 10.—Excitement among passengers caused by the discovery of three stowaways and their ejection from the vessel, probably started the rumor that two bombs, set to explode in four hours, were found on the Steamer Shinyo Maru soon after she sailed from here November 20th, according to C. J. Goodrich, general passenger agent of the Toyo Kisen Kaisha.

TAX EXTENSION WORK HAS BEEN COMPLETED BY COUNTY CLERK

Books Now in Sheriff's Hands For Collection—Valuation of Property Less But Total Tax Revenues Will Be $30,000 Higher.

County Clerk Boruff has completed the arduous work of tax extension and the books have been turned over to Sheriff Graff for the collection of taxes. Altho total equalized value is less, the amount of taxes to be raised will be $30,661.21 more, this being due to the higher tax rate in several instances and to so many new high school districts.

The state tax was 55 cents for 1915 taxes against 48 cents for 1914, the fact alone resulting in an increase in taxes of about $12,500. The total revenue to be collected this year is $554,464.77 against $523,803.56 in 1914. The total equalized value of property in the county is $17,957,690, which is somewhat less than for 1914, when the figures were $18,010,363. The difference is largely in the valuation of personal property which this year was $130,356 less than last year. The comparative figures are as follows:

Assessed Values.

	1914	1915
Personal property	$3,538,099	$3,408,643
